
Senior contract front-end developer with over 10 years' commercial experience.

Highly experienced working with Vanilla JavaScript, React and Vue.js alongside CSS/SASS/HTML. I bring reliability to every project, and am able to quickly and seamlessly slot into new teams. I'm passionate about learning new techniques and technologies and enjoy mentoring junior developers.

SKILLS

JavaScript – Vanilla, ES6/7, jQuery

React – Redux, Gatsby

Vue.js – Vuex, Nuxt.js

CSS / SASS – Responsive, BEM

HTML – Accessibility, SEO

Templating – Handlebars / Twig

CMS – WordPress & WP-API, Kentico Cloud

Automation – Webpack, Gulp, Yarn, etc.

Code Quality – ESLint & stylelint

Processes – Pull requests, Gitflow

Version Control – Git & SVN

Design – Sketch & Photoshop

Project Management – JIRA, Trello, etc.

EXPERIENCE

Liminal Pages

Remote / Contract
Apr19 – May19

Developed a Gatsby-powered static website with content sourced by WordPress, hosted on netlify. Built React and GraphQL-driven components and templates, with netlify forms and MailChimp integrated as required.

Matter Of Form

London / Contract
Dec18 – Mar19

Worked with a team of developers to build a large Vue.js with Nuxt.js, server-side rendered website, powered by a Headless CMS, Kentico Cloud.

Worked on the data layer on the front and back-end, providing content from the CMS and other APIs. Developed the structure and functionality of components. Built any complex JS that arose throughout the project.

Responsible for the initial setup of the project, reviewing JS pull requests across the team, and helping mentor the junior developers.

Design Culture

London / Contract
Sep18 – Oct18

Led the development of the front-end for a website that included a React event and news archive application. Functionality included filtering and exploration of content with a library of flexible UI components.

Worked with their other developers to help provide a grounding in React and to effectively hand over the application for future development.

Matter Of Form

London / Contract
Mar18 – Jun18
Jul18 – Aug18

Led the development of the front-end of a large, highly modular luxury hotel website.

Vue.js and Vuex were used as part of a Vanilla JS and BEM component library.

Responsible for front-end code reviews and helping to develop internal processes and internal tools, like the agency's boilerplate.

<p>Design Culture <i>London / Contract</i> <i>Nov17 – Jan18</i></p>	<p>Led the development on the front-end of a large website build. A series of highly flexible, reusable components were built with Twig and BEM then progressively enhanced with Vanilla ES6 JS.</p>
<p>Zone <i>London / Contract</i> <i>Jul17 – Sep17</i></p>	<p>Built reusable components for a large corporate site. Led the development of a Vanilla ES6 JS application. Pulled data from an API and integrated with Google Maps to build a location search interface. Gitflow was used throughout, alongside regular front-end code reviews.</p>
<p>Radley Yeldar <i>London / Contract</i> <i>Apr17 – Jun17</i></p>	<p>Worked on a Vanilla ES6 JS and animation-heavy single page site. Also developed a large static build. I used Handlebars alongside BEM to create a number of reusable components to be integrated into Umbraco.</p>
<p>Digirati <i>London / Contract</i> <i>Nov16 – Dec16</i></p>	<p>An internal project building a series of mobile-first static templates and a style guide powered by Handlebars & Assemble with Atomic Design. Accessibility and progressive enhancement were really important, with the use of ARIA within HTML and following of web accessibility guidelines.</p>
<p>Zone <i>London / Contract</i> <i>Jun16 – Jul16</i> <i>Sep16 – Oct16</i></p>	<p>Worked on several large corporate websites and a webapp adding additional responsive templates and functionality. Gained exposure to razor templates, Gitflow, ES6 and further experience building on top of large codebases with multiple team members.</p>
<p>Radley Yeldar <i>London / Contract</i> <i>Jan16 – Mar16</i></p>	<p>Developed a series of projects for large multinational clients. The builds included advanced Parallax and JS heavy UI. Gained further experience with Grunt, BEM and Susy.</p>
<p>Remote freelancing <i>Apr14 – Jan16</i></p>	<p>Worked remote for various small creative agencies and startups. This involved building medium-sized WordPress websites with bespoke themes.</p>
<p>Shout! Creative <i>Norwich / Perm</i> <i>Lead Developer</i> <i>May12 – Apr14</i></p>	<p>Led the development of WordPress-powered content managed websites. Developed specifications, input into website structure, functionality and UX and input into project management, including timelines and workflow.</p>
<p>Solid State Group <i>London / Perm</i> <i>Nov08 – Feb12</i></p>	<p>Websites and webapps in medium-sized teams for a wide range of clients. CMS integration with the company's Java-based CMS. Promoted from junior developer.</p>
